Mercedes-Benz

A REAL MERCEDES HAS NO STANDARD SIZE.

53 MM / 1:87

91 MM / 1:50

106 MM / 1:43

134 MM / 1:32

254 MM / 1:18

Eighteen months in development, lots of passion, creativity and, above all, technical expertise make it possible for big emotions to become 100% faithful miniature models.

However, the one-to-one reproductions are more than just simple copies – they are little works of art in scales 1:18, 1:32, 1:43, 1:50 or 1:87. The dynamic energy of a spoiler, the ingenious design of the vent grille or the delicate creation of the operating elements in the cockpit – everything that makes the original so fascinating is expressed in the model. Based on the latest CAD technology, CAD designers, product managers of Mercedes-Benz model cars and model car manufacturers create these proportional masterpieces. Alongside the design and function, it is, of course, the true-to-original paint in an authentic colour shade with perfect light edges that impresses. More than 300 real collector's items allow you to experience the fascination and passion yourself. Discover them now in the catalogue, at your Mercedes-Benz dealer or in our online shop at: shop.mercedes-benz.com.
